Building friendship and confidence.

In 1986, Presbyterian Manors of Mid-America introduced one of Kansas' first memory care programs. Today, as a Presbyterian Manors of Mid-America community, we continue to learn from our residents, their loved ones and experts in the field. They help us maintain the reputation we've earned as an innovative, compassionate resource that residents and their families can depend on and trust.

We make taking the next step to securing the right care easier for you and your loved one.

Just ask. Together, we'll find the answers.
